

PM 12 PROPOSALS MAP

Correspondent No.	Representation No.	Correspondent Name
000717	302013	Mrs K Haley

Summary of Objection

The Borough Council have stated that they agree with Inspector's recommendation IR 12(6) that the boundaries of SINC designations are shown on the Proposals Map. However PM 12(6) states 'See PM 1B.21'. PM 1B.21 refers to archaeological sites of natural importance and justifies why the Borough Council does not propose to identify nationally important remains on the Proposals Map (other than Scheduled Ancient Monuments). No reference is made to Sites of Importance for Nature Conservation and the need to identify these. It should be clarified that SINC boundaries are indeed to be identified on the Proposals Map. This approach is recommended by paragraph 25 of PPG9.

Council's Response and Reasoning

Paragraph 1.77 of the supporting text of the Revised Deposit Local Plan already confirms that SINC's will be shown on the Adopted Local Plan Proposals Map.

Proposed Further Modification

No change.

Summary of Representation

Proposals Map - support PM12 modification 3 which notes that Bestwood village is the only part of the Borough within the Nottingham/Hucknall Public Transport Corridor.

Response to Representation

Your support for this Proposed Modification is welcomed.
