

| DPZ | Regional Character Area | Landscape Condition | Strength of Character | Summary of Landscape Actions | | | Overall Assessment |
|--------------------------------------|------------------------------|---------------------|-----------------------|---|--|--|-------------------------------------|
| | | | | Landscape Features | Built Form | Other | |
| ML17 - Linby Wooded Farmland | Magnesian Limestone Ridge | Moderate | Moderate | 1) enhancement of hedgerows. 2) enhance/protect wooded areas and provide new woods on spoil heaps. | 1) protect mining heritage of Newstead. 2) soften urban fringe. 3) conserve character of Linby. | 1) conserve wooded nature of rail line. 2) ensure no cumulative impacts from new infrastructure. 3) use spoil heaps as view points | Moderate (enhance) |
| ML18 - River Leen Corridor | Magnesian Limestone Ridge | Moderate | Moderate | 1) enhance/protect hedgerows. 2) enhance/protect woodlands. 3) conserve parkland nature around Mill Lakes. 4) enhance condition of grazing land. | 1) Maintain nucleated settlement pattern and avoid ribbon development. | 1) screen lampposts etc to reduce urbanising effect | Moderate (enhance) |
| MN013 - Gedling Colliery Green Space | Mid-Nottinghamshire Farmland | Moderate | Weak | 1) New planting to integrate into surrounding areas. 2) strengthen wooded areas around recreation ground and Golf Course. 3) use the disused railway as a distinctive feature. 4) use the highest land as a view point. 5) maintenance of the hedgerow surrounding the rough grasslands | 1) ensure development is in keeping with existing character. 2) ensure new development does not go above the colliery tip | n/a | Poor-Moderate (enhance and restore) |

| | | | | | | | |
|--------------------------------------|------------------------------|----------|----------|--|--|---|--------------------------------------|
| MN014 - Woodborough Sloping Farmland | Mid-Nottinghamshire Farmland | Good | Moderate | 1) maintain rural character of undulating farmland. 2) maintain pattern of head grows. 3) Integration of new wooded areas and soften views to edge of Calverton | 1) integrate new development with existing. 2) protect nestled settlements and dispersed farmsteads. | n/a | Moderate-Good (conserve and enhance) |
| MN015 - The Dumbles Rolling Farmland | Mid-Nottinghamshire Farmland | Good | Strong | 1) conserve the pattern of woodland areas. 2) conserve and enhance hedgerows and field boundaries. 3) protect streams and associated wooded areas. 4) conserve the rural farming pattern. | 1) focus growth on existing villages and restricting sprawl. 2) conserve existing settlement character | 1) conserve the rural nature of country lanes | Good (conserve) |
| S1 - Oxtan Bogs River Meadowlands | Sherwood | Moderate | Moderate | 1) Seek opportunities to convert arable land to permanent pastures. 2) Take opportunities to enhance woodland areas. 3) Retain and enhance river channel. | 1) Protect character by concentrating development in Calverton. 2) Screen new development with native tree species | n/a | Poor-Moderate (enhance and restore) |
| S2 - Killarney Park Wooded Farmlands | Sherwood | Moderate | Moderate | 1) Look to restore areas of heath land. 2) Look to create and protect small areas of woodland. | 1) Protect character by concentrating development around the edge of Nottingham. 2) Promote large scale woodland planting. 3) Protect traditional buildings and ensure new farm buildings are sensitively designed | n/a | Moderate (enhance) |

| | | | | | | | |
|--|----------|----------|----------|--|---|-----|--------------------------------------|
| S3 - Papplewick Wooded Estatelands | Sherwood | Good | Moderate | 1) Conserve and create woodlands and hedges. 2) Restore areas of heath land | 1) Protect character by concentrating development around Ravenshead and along transport corridors. 2) Sensitive design of new buildings especially in Papplewick. 3) Create new areas of woodland | n/a | Moderate-Good (conserve and enhance) |
| S5 - Newstead Wooded Estatelands | Sherwood | Moderate | Low | 1) Conserve and enhance woodland areas. 2) Create new areas of heath land and acid grassland. | 1) Use woodland to screen new developments | n/a | Poor-Moderate (enhance and restore) |
| S17 - Calverton North Village Farmlands | Sherwood | Poor | Low | 1) recreate historic field pattern. 2) create new heathland. 3) Create small woodlands. 4) Seek opportunities to convert arable land to permanent pastures | 1) Concentarte development in Calverton. 2) Promote sensitive design. 3) Soften new development with woodland. 4) Develop within historic field boundaries | n/a | Poor (restore/create) |
| S18 - Blidworth and Rainworth Wooded Estatelands | Sherwood | Moderate | Moderate | 1) Conserve & create areas of woodland. 2) Protect headgrows. 3) Create opportunities to create heath land | 1) Concentrate development on Blidworth and Rainworth. 2) Use woodland to soften new development. 3) Protect pattern of field boundaries. 4) Promote traditional design | n/a | Moderate (enhance) |

| | | | | | | | |
|---|--------------------|----------|----------|--|--|-----|--|
| S41 - Bestwood Wooded Farmlands | Sherwood | Moderate | Low | 1) Reinforce headgrows and pastures. 2) Conserve & reinforce headgrows. 3) Create areas of heathland. 4) Conserve seasonal ponds. | 1) Conserve design of lodge buildings. 2) Protect existing field boundaries | n/a | Poor-Moderate (enhance and restore) |
| S42 - Calverton Village Farmlands | Sherwood | Moderate | Moderate | 1) Conserve pattern of pastures. 2) Conserve mature hedgrows. 3) Seek opportunities to convert arable land to permanent pastures | 1) Concentrate development in Calverton. 2) Develop within historic field boundaries. | n/a | Moderate (enhance) |
| S44 - Newstead Abbey Wooded Estatelands | Sherwood | Good | High | 1) Conserve woodland and protect individual mature trees. 2) Conserve heath lands. 3) Conserve wetland. | 1) Promote sensitive design. 2) Locate any new development to the east | n/a | Good (conserve) |
| TW5 - Stoke Bardolph Village Farmlands | Trent Washlands | Poor | Low | 1) create new headgrows. 2) create woodland to soften urban development. 3) Conserve rural character of landscape, field pattern and village | | n/a | Poor (create) |

| | | | | | | | |
|------------------------------------|--------------------|----------|----------|---|-----|-----|-----------------------|
| TW51 - Stoke Lock River Meadows | Trent Washlands | Moderate | Moderate | <ul style="list-style-type: none"> 1) Conserve pastoral character and floodplain. 2) Take opportunity to develop ecological value of water features and wet grasslands. 3) Protect & create hedges and woodland. 4) Seek opportunities to convert arable land to permanent pastures | n/a | n/a | Moderate (enhance) |
|------------------------------------|--------------------|----------|----------|---|-----|-----|-----------------------|
