Report to Environment and Licensing Committee

Subject: Proposed Taxi Licensing Fees for 2025/26

Date: 5 August 2025

Author: Community Protection Manager

Purpose

To approve the proposed fees for taxi driver, operator and vehicle licencing for 2025/26 as shown at Appendix 1, subject to advertisement requirements being satisfied.

Recommendation(s)

THAT:

- 1. Members approve the fees for taxi driver, operators and vehicle licences as detailed at Appendix 1 for 2025/26 for advertisement in accordance with the Local Government (Miscellaneous Provisions) Act 1976, such fees to automatically come into force on 1st October 2025 if no objections are received within the statutory period. If any objections are received within the statutory period that these be referred back to Committee for consideration in accordance with the legislation.**

1 Background

- 1.1 The fixing of fees proposed in the attached fee schedule at Appendix 1 for 2025/26 is a function of the Environment and Licensing Committee as laid out in the Local Authorities (Functions and Responsibilities) (England) Regulations 2000.
- 1.2 During 2022/23 an internal review of the setting of taxi licensing fees was undertaken which was independently reviewed by the Chartered Institute of Public Finance and Accountancy ('CIPFA'). The review involved an analysis of workflows and associated time analyses to enable the apportionment of service

costs to driver, vehicle and operator licences to establish individual memorandum accounts. This incorporated the changes to service delivery method from 2022/23 and provided clearer transparency for future fees setting.

- 1.3 As detailed in the Legal Implications section of the report at paragraph 5.3, the Council cannot make a profit from licence fees and there must be a carry forward of any surplus. There can also be recovery of any deficit. The reconciliation of any surplus and deficit to ensure full cost recovery i.e. a break-even position, is over a three-year cycle. The calculations in respect of each type of licence issued by the Council should be kept separate i.e. memorandum accounts. The three-year position from 2022-23 to 2024-25 is as follows:

3 Year Memorandum Position - Summary				
Licence Type	2022-23	2023-24	2024-25	3 Year Position (Surplus)/Deficit
Drivers	47,000	19,100	(7,100)	59,000
Vehicles	(41,900)	600	12,400	(28,900)
Operators	(700)	(1,000)	400	(1,300)
Total	4,400	18,700	5,700	28,800

- 1.4 A small proportion of the retrospective deficit on drivers' licence, will be incorporated into the fee setting for 2025/26 as part of the three-year cycle, along with trying to achieve a full cost recovery position on Vehicles and Operators. The actual year-end balances for 2024/25 and the quarter 1 position for 2025/26 have been incorporated into the calculations. Setting the fees in July for an October implementation has been beneficial due to this data being available to make a more informed decision.
- 1.5 The proposed fees for 2025/26 are attached at Appendix 1. The summary of the budgets and fee calculations on both a full cost recovery basis within Appendix 2 which have been calculated employing the methodology determined by the internal review and confirmed by CIPFA and incorporating their recommendations. It has previously been the Council's stated intention to achieve full cost recovery on the taxi licence accounts over time and this remains the objective. The proposed fees at Appendix 1 are based upon estimates of the cost of the Taxi Licencing Service provision for 2025/26 as apportioned to the memorandum accounts for each licence type.

There are some increased costs included in the 2025/26 budget compared to 2024/25, for example, inflationary pressures including pay awards which have been consistently applied to all the Council's services. These additional costs

are partly offset by some reductions in costs in Customer Services. Whilst the time spent on each individual licence by Customer Services hasn't reduced, the overall number of Licences has fallen which has resulted in a reduced charge overall. Further efficiencies are expected in the service once the digitisation has been fully implemented.

1.6

2025/26:	Hours	Number of Licences (projected)	Total Hours	%
Driver - 1 Year	2.84	242	687.28	
Driver - 3 Year	4.34	110	477.40	
Knowledge	1	106	106.00	26.77
Operator - 1 Year	0.34	4	1.36	
Operator - 5 Year	0.34	2	0.68	0.04
Vehicle	2.33	1,336	3,112.88	73.19
		1,800	4,386	100

1.7 The calculated fees for each licence type are detailed in Appendix 1 with associated budgets detailed in Appendix 2. All other assumed licence numbers to be issued during 2025/26 has fallen. Taken this, the surpluses and deficits from previous years, and budgetary forecasts for 2025/26, the changes from 2024/25 rates can be summarised as follows:

- Drivers Licences – 5% Increase
- Vehicle Licences – 5% Increase
- Operators Licences – 0% Increase
- Other Fees – 5% Increase

The review of the past fee setting confirmed that drivers' licences were being provided at a deficit i.e. the income received has not covered the cost of providing the licence and has previously received a subsidy from the Council Taxpayer. To recover some of this previous deficit the fees are proposed to increase by 5%.

In 2024/25 the fees for Vehicle licences were reduced from £252 to £200 to ensure they were not being provided at a surplus, however due to a fall in vehicle licence numbers in 2024-25 and quarter 1 in 2025-26 the fees are proposed to be increased by 5% to bring them back in line to achieve near full cost recovery in 2025/26 and not fall into a large deficit position.

	2021-22	2022-23	2023-24	2024-25
Vehicle Licences Issued	1521	1496	1477	1377

- 1.8 The Act permits the Council to set vehicle and operator licence fees, but where this fee exceeds £25, as is the case at Gedling, a public notice of the proposed fees must be advertised in a local newspaper circulating in the district. The advertisement must advise where any objections to the fee changes can be lodged and must allow a period of at least 28 days from publication of the notice for objections to be lodged. If no objections are made or if all objections are withdrawn the fees come into effect after the 28-day period on the date specified in the notice. Where objections are not withdrawn, the Council must then consider the objections before determining the fee level and setting a further date, not later than two months after the first specified date, on which the new fees shall come into force.
- 1.9 In relation to taxi drivers' licence application fees in Appendix 1, there is no statutory requirement to publicise any changes in the level of fees. However, as with the vehicle and operator licence fees, Gedling Borough Council will publish details of the proposed fees for 2025/26 and provide for a period of 28 days from publication for any objections to the fees to be lodged with the Council. Any such objections will be considered by the Council before the proposed fees are finally approved. This 28-day period will be a period of consultation, the results of this will be considered before final determination of these fees.

Proposal

- 2 It is proposed that the fees outlined in Appendix 1 for 2025/26 be approved for advertisement in accordance with the Act and subject to no objections being received by the specified date (28 days after publication) those fees will come into effect on 1 October 2025. If objections are received, in line with the Act the Council will have to consider the objections and set a further date no later than 2 months after the first specified date on which the new fees would come into force.

Alternative Options

- 3 That the fee increase is not approved resulting in the Council not moving towards operating the service at full cost recovery requiring a higher subsidy from the Council Taxpayer.
- 3.1 That a lower fee increase be applied to that proposed. A lower fee increase, or fee reduction would increase the estimated deficit on driver fees, and introduce an estimated deficit on vehicle licences, the resulting deficit would then be carried forward as part of the three-year accounting cycle and would potentially result in an increased fee for 2026/27. As the ultimate aim is to achieve full cost recovery without a Council Taxpayer subsidy and to achieve some stability in fees for licence holders going forward, this option is not recommended.
- 3.2 That a higher fee increase be applied to a driver's licence to reduce the estimated deficit and move more quickly towards full cost recovery. A higher increase is not recommended due to the potential impact on licence holders. The proposed phasing in over three years seeks to achieve a fair balance between taxpayer subsidy and cost recovery from the licence holder.
- 3.3 The Council could choose not to advertise the driver licence fees as this is not a statutory requirement. This would mean there is no consultation with licence holders which is not recommended given the proposed phasing in of fee increases for this group.

Financial Implications

- 4 The report sets out the method used when calculating the taxi and private hire fees and charges for 2025/26. The memorandum accounts for driver, vehicle and operator licences, detailing: the estimated costs of service provision by licence type; the calculated fee that would be required to achieve cost recovery based on projected volumes of licences; and the actual proposed fee including the consequent estimated deficit or surplus arising from the proposal to phase in the fee; is detailed in Appendix 2 and summarised in the table below:

Estimated Taxi Licence Memorandum Accounts 2025/26 – Based on proposed fees detailed in Appendix 1

Projected Budget	Driver Licence £	Vehicle Licence £	Operator Licence £	Total £
2023/24 (C/Fwd)	66,000	(41,300)	(1,000)	23,700

2024/25 Actuals	(7,100)	12,400	400	5,700
2025/26:				
Expenditure	125,500	309,500	2,300	437,300
Income	(128,200)	(281,100)	(1,400)	(410,700)
2025/26 Deficit/(Surplus):	(2,700)	28,400	900	26,600
Total 3 Year Position	56,200	(500)	300	56,000
Driver Licence 50% Write-off	(28,100)	0	0	(28,100)
C/fwd to 2026-27	28,100	(500)	300	27,900

- 4.1 The Council cannot make a profit and must carry forward any surplus. Any deficit can also be carried forward and can be recovered in subsequent years. Surplus or deficits will be considered when fee setting in future years with the aim of reconciliation occurring over a three-year cycle. The surpluses or deficits arising from 2022/23, 2023/24, and 2024/25, have been considered when setting fees for 2025/26 as part of the three-year accounting cycle.
- 4.2 To ensure full cost recovery over the three-year memorandum cycle we would need to significantly increase Drivers fees to an amount which is not deemed to be fair and equitable. Therefore, it is proposed to write off 50% of the Driver's deficit which is 28,100 (as seen in the table above) and that will not be carried forward to future years.

Legal Implications

- 5 Sections 53 and 70 of the Act allow the Council to charge fees for the grant of licences in respect of hackney carriage and private hire drivers, vehicles and operators. The legislation specifies the elements that can be included in the cost of the licence fee.
- 5.1 Section 70 covers the vehicle and operators' licences the Act states that the Council may charge such fees as may be sufficient in the aggregate to cover in whole or in part:

- The reasonable cost of inspecting Hackney Carriages and Private Hire vehicles to ascertain whether any such licence should be granted or renewed.
- The reasonable cost of providing Hackney Carriage stands.

Any reasonable administrative or other costs in connection with the above and with the control and supervision of Hackney Carriages and Private Hire vehicles.

- 5.2 Section 53 of the Act covers the fee for drivers' licences the Council may charge:

Such fee as it considers reasonable with a view to recovering the costs of issue and administration associated with the grant of Hackney Carriage and Private Hire drivers' licences.

- 5.3 Case law has established that the cost for the enforcement of unlicensed drivers, vehicles or operators cannot be included in the calculation. The Council cannot make a profit from licence fees and there must be a carry forward of any surplus. There can also be recovery of any deficit. The reconciliation of any surplus and deficit is over a three-year cycle. The calculations in respect of each type of licence issued by the Council should be kept separate.
- 5.4 When the Council proposes to set new fees for vehicle and operator licences it is required by Section 70 of the Act to publish notice of the proposed variation in a local newspaper stating that objections may be made within a period of not less than 28 days. If objections are received and not withdrawn the Council must consider them and set a further date on which the variation shall come into force with or without modifications.
- 5.5 There is no statutory requirement for a similar procedure in respect of a proposed variation in the fees for drivers' licences. In practice the Council has given public notice of proposed increases in those fees at the same time as proposed increases in the fees for vehicle and operator's licences, invited objections, and set a date for implementation in the same way.
