3, 4 & 5	Introduction	<p>Add Public Health paragraph as follows:</p> <p>The 4 statutory licensing objectives aim to reduce crime and disorder and increase public safety. Licensing policies are not currently required to address Public Health concerns, however, there is strong evidence that alcohol outlet density is associated with increased alcohol-related hospital admissions and alcohol-related mortality. Alcohol contributes to more than 60 diseases and health conditions and represents 10% of the burden of disease and death in the UK, placing it in the top three lifestyle risk factors after smoking and obesity (Alcohol Concern 2015). Alcohol treatment services are commissioned by Nottinghamshire County Council Public Health Change Grow Live.</p> <p>Whilst the exact relationship between alcohol and ill-health is often complex and affected by other factors such as the socioeconomic make-up of the neighbourhood, studies have found that local authorities' greater use of licensing powers leads to reductions in alcohol-related hospital admissions in England (Institute of Alcohol Studies 2017). In light of this, this authority has reviewed Public Health</p>

		<p>indicators both at District level from the Local Alcohol Profiles for England and at sub-district level.</p> <p>Gedling</p> <p>Public health analysts have mapped a number of alcohol-related measures that are considered to have a negative impact on health and wellbeing to show how the relative levels of these measures vary across Nottinghamshire County Districts and Boroughs.</p> <p>Measures used were selected for their relevance to licensing and public health and their availability at sub-district level and include alcohol-related hospital admissions, anti-social behaviour, crimes against the person including domestic violence, rate of persons in treatment for substance misuse, an estimate of the percentage of the population drinking at least once a day and deprivation.</p> <p>This has identified some areas with relatively higher levels of harm and for Gedling this includes part of: Calverton, Daybrook, Redhill, Carlton Hill, Colwick and Netherfield.</p> <p>Applications within these areas or surroundings should be aware of, and give consideration to, their contribution to the burden of alcohol-related harms to the health and wellbeing within the community</p>

		<p>have should they identify someone who is / may be at risk.</p> <p>As part of this process the Licensing Authority carries out regular enforcement/compliance checks across all of the premises licensed in our area, in order to build good working relationships with licence holders and designated premises supervisors, and providing them with advice as to how they and their staff can help safeguard children and vulnerable persons across the Nottinghamshire region. When considering applications for new licences and variations to existing licences, the Licensing Authority will seek to be assured that applicants have considered the safeguarding of children and vulnerable persons within the Operating Schedule of the application.</p>
