

Enable the installation of an electric charging point in High Street Car Park by entering into a Hosting Agreement and Wayleave

Background

Under a previously agreed Terms Report (Terms Report 993) the Council decided to allow Chargemaster install electric charging points in 4 car parks throughout the Borough. In addition to this, Chargemaster have now proposed to install an EV point in High Street Car Park, Arnold.

To go ahead with the installation of this charging points we need to enter into the hosting and wayleave agreement as outlined in the previous decisions (Terms Report 989 and 993).

Request for approval

Approval is therefore recommended to allow the Council to enter into the hosting and wayleave agreement for High Street Car Park.
