Dear Mark

Living Wage

Unison welcomes the adoption of the living wage by Gedling Borough Council and can confirm that no objections have been received from our members and as such supports this proposal.

However, after consultation with Unison HQ, they feel that the way in which this is to be implemented is rather complex and before they can agree formally, will need to seek advice from their Equal Pay advisors.

This can be a lengthy process. Therefore will the Council consider a yearly supplement to the basic wage to bring it up to living wage level which would, in Unison's view be a speedier and easier way to administer and approve the living wage?

Yours sincerely

Gill Morley
