62	120		

Latest Note

A further 62 Net additional homes were built in quarter 3, but this was below the target of 120. This Construction during this period has been affected by lockdown restrictions which resulted in development pausing on many large and small sites within the Borough. To address why the target has been missed a Housing Delivery Action Plan was published 13th August 2020, <https://www.gedling.gov.uk/media/gedlingboroughcouncil/documents/planningpolicy/documents/HDAP%202020.pdf>, this analyses the key reasons for the under delivery of the Council's housing requirement and identifies measures the Council intends to undertake to increase delivery of new housing.

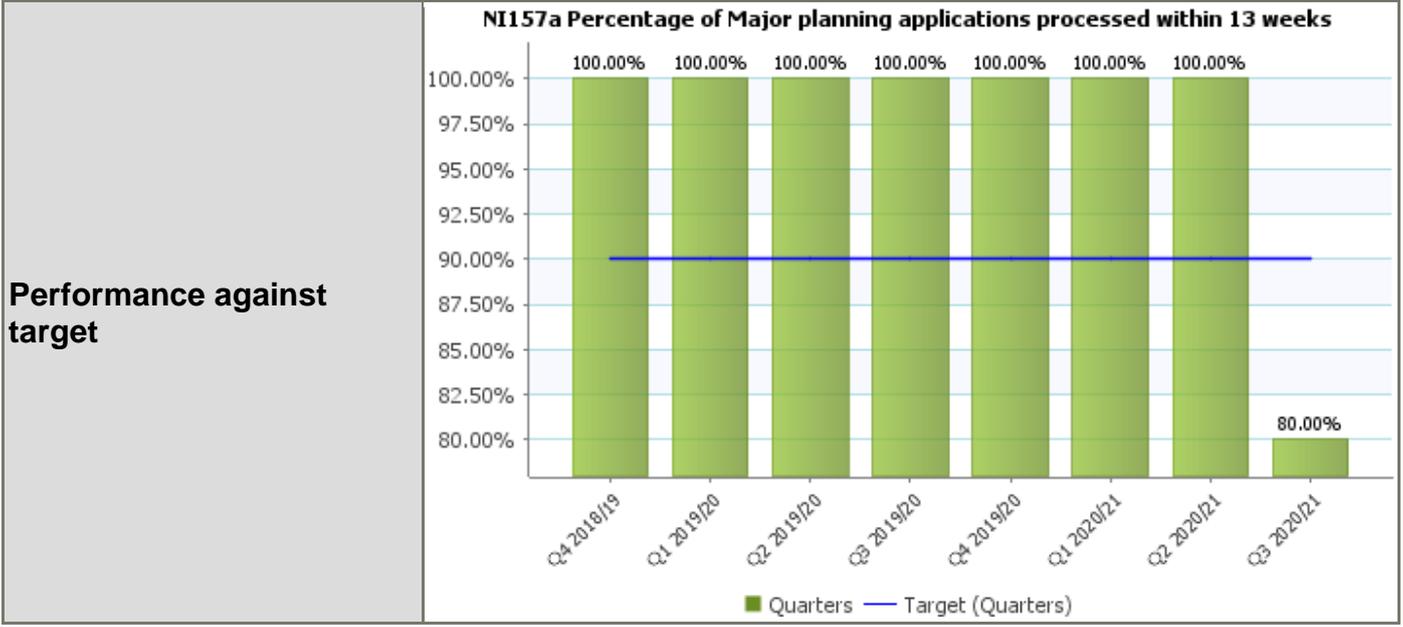

The Action Plan looks at the planning policy context, provides an analysis of past housing delivery (with regards to past performance, progress on Local Plan housing allocations, engaging with developers and viability and infrastructure issues) and identifies a number of key actions which aim to improve housing delivery. A number of the actions identified in the Action Plan fall within the remit of the Council, whilst other actions will need to be supported by other stakeholders involved in delivering housing, in particular landowners and house builders.
