<p>Please fill in a brief description of the project.</p> <ul style="list-style-type: none"> • What is the project? • What are the benefits for young people? • Why has this piece of work come about? • How do you want young people to be consulted? 	<p>Who we are</p> <p>Covering Broxtowe, Gedling, Hucknall and Rushcliffe, South Nottinghamshire Integrated Care Partnership (or ICP) is a group of health, care and voluntary organisations who work together with local authorities and district and borough councils and communities to support local people to live happier, healthier lives.</p> <p>Our ultimate aim is to help people to keep as well as possible. So, we are helping people find activities in their communities so everyone can find something they love - like gyms in parks, walking groups, allotment space or even paddle boarding.</p> <p>Our local GP Practices are working together with community health and mental health teams in Primary Care Networks for when people need medical support.</p> <p>And when people need more help, perhaps they have multiple health issues, then we're looking at how to better join up services across health and care at all levels of our local system.</p> <p>Community Voices event</p> <p>One of our most important aims is to make sure we have the right services to support young people's physical and mental wellbeing and are keen to engage with you and find out what matters most to you when it comes to health and care.</p> <p>With this in mind, we are looking at running an online health and care 'Community Voices' event in Spring 2022 to listen to young people across South Nottinghamshire and we'd like to involve the local youth councils in helping make that happen.</p>
--	---

	<p>This will be our third 'Community Voices' event. We have previously held one around mental health and one around general health and access to services. These are mostly attended by older people and we're really want to also hear the views of young people. This is why we would like to organise a Community Voices event especially for young people and to help us make sure that it's worthwhile, we'd really like your help.</p>
<p>What are the outcomes/aims for this piece of work/project?</p>	<p>The aims are to involve young people with local health and care issues and services and work together to host a digital event for young people in South Nottinghamshire.</p> <p>The event aim is listen to young people's views and find out more about what matters most to them so we can make real changes to improve services for our local communities.</p>
<p>What resources can you provide? Taxi costs for young people, materials if needed, tutors etc.</p>	<p>The event will be virtual but we can discuss resources.</p>
<p>What are your timeframes for this piece of work/project?</p>	<p>We'd like to do the event in Spring of 2022, it would be great if we can come along to the next meeting, or the following one to discuss.</p>

How long would you need to present the project? 20 minutes.....

Please describe how?

The event will cover all areas of physical and emotional mental health and be open to young people across Nottingham and Nottinghamshire. There will also be health and care professionals to help support and facilitate.

We hope that this would be the start of long-term positive engagement with local young people.
