Equality Impact Assessment

Our service is provided equally to all households throughout the Borough irrespective of gender, age, marriage and civil partnership, disability, race & ethnicity, sexual orientation, religion or beliefs and pregnancy & maternity. The information analysed to inform this EIA indicates that there is no significant differential impact for residents. Should concerns be raised at any time the service will be monitored going forward and any emerging impacts for these or other groups will be addressed accordingly.

Waste Policy Functions and Aims

This policy aims to provide the framework for the following:

- A proportionate and considered approach to waste collection across the Borough of Gedling
- Clarity and communication for residents to support GBC's recycling targets
- Reduction in residual (black) bin waste
- Increase in recycling rates
- Reduction in contamination of waste streams
- Clarity of measures that will be taken for those who continually contaminate or do not comply with this policy
- Minimisation of the carbon impact of the Waste Service including fleet in terms of mileage and route optimisation

Is there is any evidence of a high disproportionate adverse or positive impact on any groups?		No	Comment: Nil
Is there an opportunity to mitigate or alleviate any such impacts?	Yes		Comment: The service will be monitored going forward and any emerging impacts for any highlighted group will be addressed accordingly.
Are there any gaps in information available (e.g. evidence) so that a complete assessment of different impacts is not possible?		No	Comment: Nil
In response to the information provided above please provide a set of proposed action including any consultation that is going to be carried out:

Policy Safeguarding

Age Infirmity or Disability

Residents who express difficulty with putting out and returning their bins, will be able to contact the Borough Council either via telephone, online or through their healthcare provider to request an 'assisted collection service', where the collection crew will empty the bin and return it to the resident's property, negating the need for the resident to transport their waste & recycling to

collection point. Information regarding special assistance is also detailed within the Domestic Waste and Recycling Service. The locations of these assisted collections are logged and provided to the specific collection crews.

Residents who have additional needs with managing household generated healthcare wastes are able to request a collection of infectious wastes.

Race & Ethnicity

Should a residents first language is not English, the Council will provide recycling literature in the mother tongue and or using language line for any other enquiry.
