

<p>Name of project, policy, function, service, or proposal being assessed:</p>	<p>Carbon Impact Assessment: Carlton Long Term Plan for Towns (LTPFT)</p> <p>The Council has been awarded £20 million endowment style funding over 10 years to develop a Carlton Plan that will identify a range of measures under the themes of</p> <ul style="list-style-type: none"> • Safety and security; • High Street, heritage, and regeneration; • Transport and connectivity. <p>The Council as the accountable body is responsible for the establishment of a Town Board and appointing an independent chair. The Carlton Town Board will work with the Council to develop a 10-year Carlton Town Plan and 3-year investment plan informed by community and stakeholder engagement.</p>			
<p>The main objective of Long Term for Towns: Carlton</p>	<p>The main objective of the LTPFT is to develop a long-term plan for Carlton focused on the themes mentioned above that is informed by community and stakeholders.</p> <p>The LTPFT fund is intended to “be a different way of approaching challenges in town with the intention to put power back into the hands of local people to decide on local priorities and what is best for the long-term future of the places which they live.”</p>			
<p>What impact will this (please insert the name) have on the following Please read guidance before completing.</p>				
<p>Category</p>	<p>Negative</p>	<p>Positive</p>	<p>No impact/ Negligible change</p>	<p>Mitigation/ Comments</p>
<p>Behaviour & Culture Change</p>		<p>The £20 million LTPFT funding will enable a 10-year Carlton Town Plan and 3-year investment plan to be developed to include interventions that can impact upon safety and security, the local High Streets and regeneration as well as heritage assets. The funding is also</p>		<p>The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council’s Environment Policy.</p>

		identified for opportunities to improve transport and connectivity. These interventions can have a positive impact on behavioural change to reduce emissions.		
Built Environment	There is a possibility that the Carlton Town Plan identifies interventions that could include construction works. Therefore, design and business cases will include measure to minimise and mitigate against adverse impacts.	The Carlton Town investment plan may include interventions that impact upon greening of public spaces and improve public transport connectivity and also active travel that can have a positive impact upon the environment.		The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy
Transport		The Carlton Town investment plan may include interventions that encourage public transport take up and active travel.		The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy

Energy, Natural Resources & Climate Change	The Carlton Town Plan could result in an increase in energy demand from potential developments/interventions. However, wherever possible these will be mitigated by efficient design and robust business cases.	The Carlton Town investment plan interventions will require business cases that will consider the Council Environment Policy and options to minimise carbon emissions/energy efficiency.		The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy
Waste Reduction & Recycling			Recycling and waste reduction are not included as a theme of the LTPFT. However, consideration of environmental impact of interventions will be considered within the Investment Plan	The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy
Blue-Green Infrastructure/Biodiversity		The Carlton Town 10-year Plan interventions may include opportunities to improve biodiversity across the Borough as identified by the community and stakeholders		The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy
Procurement & Purchasing		The procurement of consultants to undertake the preparation of the 10-year Carlton Town Plan and 3-year investment plan included reference to the		The 10-year Carlton Plan and 3-year investment plan will consider Carbon Reduction and Sustainability in line with the Council's Environment Policy

		environmental and sustainability. All business cases will include reference to climate change and carbon emissions that will be incorporated into the procurement process as the Council is the accountable body.
