

Report to Audit Committee

Subject: Internal Audit Follow Up Report

Date: 10 December 2024

Author: Gurpreet Dulay – Internal Audit Partner (BDO)

Purpose

To summarise the progress of implementation of recommendations from Internal Audit reviews raised and previously reported to the Audit Committee. This includes some recommendations raised by the Council's previous Internal Auditors.

Recommendation(s):

THAT:

- 1) Members to note the implementation of Internal Audit recommendations and the revised due date for incomplete recommendations.**

1. Background

- 1.1 BDO follow up on all High and Medium recommendations raised in our Internal Audit reports to monitor the implementation of these. This report summarises the recommendations that have been completed or remain incomplete, with due dates revised for these recommendations which will continue to follow up with responsible officers.

2. Proposal

- 2.1 BDO has followed up on all outstanding recommendations due by 10 December 2024. The significant improvement in the engagement from management and the completion of recommendation since the deployment of Pentana in managing the recommendations has been sustained. While this has resulted in a positive direction of travel in the completion of recommendations, as previously reported, we do note that there were some recommendations where we did not receive a response.

3. Financial Implications

3.1 There are no financial implications arising directly from this report.

4. Legal Implications

4.1 The Accounts and Audit Regulations 2015 require authorities to undertake effective internal audit to evaluate the effectiveness of risk management, control and governance processes. This report provides the annual position of internal audit for 2023/24 and is provided to Committee in accordance with the Council's Constitution and delegations contained therein.

5. Equalities Implications

5.1 There are no equalities implications arising directly from this report.

6. Carbon Reduction/Environmental Sustainability Implications

6.1 There are no carbon reduction/environmental sustainability implications arising directly from this report.

7. Appendices
