Introduction

- 1 The five year housing land supply assessment is based on the Council's Strategic Housing Land Availability Assessment (SHLAA) 2024 update.
- 2 The purpose of this five year housing land supply assessment is to monitor and review the Council's housing supply against the housing requirement set out in adopted strategic policies or against their local housing need where the strategic policies are more than five years old as required by the National Planning Policy Framework 2023.
- 3 The Department of Levelling Up, Housing and Communities last published the results of the Housing Delivery Test for 2022 on 19 December 2023. The Housing Delivery Test result for 2022 for Gedling Borough Council is 88%. Following the Housing Delivery Test results for 2018, 2019 and 2020, the Council was required to publish an Action Plan and a buffer of 20% was added to the supply of deliverable sites for the purposes of housing delivery assessment. The Housing Delivery Test result for 2022 means that the Council must continue to prepare an action plan but no longer needs to apply a buffer of 20% to its five year housing land supply. For further information on the Housing Delivery Test and the Council's Action Plan, please see separate Gedling Borough Housing Delivery Action Plan 2022 which is available at the following web page www.gedling.gov.uk/resident/planningandbuildingcontrol/planningpolicy/monitoringreports. For the purposes of this five year housing land supply assessment, a 5% buffer has been applied in accordance with the Housing Delivery Test data published on 14 January 2022, being the most recent data.
- 4 The current development plan for Gedling Borough consists of the Aligned Core Strategy and the Local Planning Document. The Aligned Core Strategy was adopted in September 2014 and allocates strategic sites for housing and other uses. The Aligned Core Strategy sets the housing requirement. The Local Planning Document was adopted on 18 July 2018 and allocates non-strategic sites for housing and other uses.

Policy context

- 5 Paragraph 76 of the National Planning Policy Framework 2023 states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide a minimum of five years' worth of housing against their housing requirement set out in adopted strategic policies, or against their local housing need where the strategic policies are more than five years old (unless these strategic policies have been reviewed and found not to require updating).
- 6 The supply of specific deliverable sites should in addition include a buffer of:-
- a) 5% to ensure choice and competition in the market for land; or
 - b) 10% where the local planning authority wishes to demonstrate a five year supply of deliverable sites through an annual position statement or recently adopted plan, to account for any fluctuations in the market during that year; or
 - c) 20% where there has been significant under delivery of housing over the previous 3 years, to improve the prospect of achieving the planned supply.
- 7 Annex 2 of the National Planning Policy Framework 2024 defines deliverable sites as follows:-
- To be considered deliverable, sites for housing should be available now, offer a suitable location for development now, and be achievable with a realistic prospect that housing will be delivered on the site within five years. In particular:*
- a) sites which do not involve major development and have planning permission, and all sites with detailed planning permission, should be considered deliverable until permission expires, unless there is clear evidence that homes will not be delivered within five years (for example because they are no longer viable, there is no longer a demand for the type of units or sites have long term phasing plans).*
 - b) where a site has outline planning permission for major development, has been allocated in a development plan, has a grant of permission in principle, or is identified on a brownfield register, it should only be considered deliverable where there is clear evidence that housing completions will begin on site within five years.*
- 8 Paragraph 72 of the National Planning Policy Framework 2023 states that local planning authorities may only make an allowance for windfall sites as part of anticipated housing supply if there is compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends. The Framework also states that local planning authorities should consider the case for setting out policies in

their Local Plans to resist inappropriate development of residential gardens, for example where development would cause harm to the local area.

- 9 The Aligned Core Strategy sets a housing requirement of 7,250 homes for the plan period 2011-2028. As the Aligned Core Strategy was adopted in September 2014 and the policies are yet to be reviewed, this means that the housing requirement figure is out of date and the Council must now monitor and review the housing supply against the annual local housing need figure calculated using the standard method.
- 10 The annual local housing need for Gedling Borough is 460. **Appendix A** explains and provides the breakdown on how the figure was calculated using the standard method as published in 2024.
- 11 The Use Classes Order 1987 (as amended) defines Use Class C2 (Residential Institutions) as residential care homes, hospitals, nursing homes, boarding schools, residential colleges and training centres. National Planning Practice Guidance states that local planning authorities will need to count housing provided for older people, including residential institutions in Use Class C2, as part of their housing land supply. All student accommodation, whether it consists of communal halls of residence or self-contained dwellings, and whether or not it is on campus, can in principle count towards contributing to an authority's housing land supply based on the amount of accommodation that new student housing releases in the wider housing market (by allowing existing properties to return to general residential use); and / or the extent to which it allows general market housing to remain in such use, rather than being converted for use as student accommodation. The Housing Delivery Test Measurement Rule Book published in July 2018 explains how the net homes delivered calculated with adjustments for net student accommodation and net other communal accommodation (calculated by applying nationally set ratios to the bedroom data of 2.5 and 1.8 respectively) for the Housing Delivery Test results.

Methodology

- 12 The Council calculates the housing supply using the approach set out in the Greater Nottingham Planning Partnership's Joint Methodology Report for Strategic Housing Land Availability Assessments (SHLAAs) which can be found at the following web page www.gedling.gov.uk/shlaa. This will be referred to as the "SHLAA methodology report" throughout in this document.
- 13 The SHLAA methodology report was updated in 2023 and Appendix C to the SHLAA methodology report updates the evidence used to support Gedling Borough Council's approach to the SHLAA methodology which includes lead-in times and build-out rates, the windfall allowance and non-implementation rates.

Deliverable sites that make up the housing supply

- 14 The sites that will make up the housing supply are those assessed to be deliverable within five years. The SHLAA methodology report explains that, in accordance with the NPPF, this consists of sites that are available now, suitable and achievable now. They include sites that are currently under construction, small sites with outline planning permission, sites with detailed planning permission and medium/large sites with outline planning permission with evidence that the site will be progressed within five years.
- 15 All sites in the assessment have been identified through the Council's SHLAA 2023 update and are listed in **Appendix B**. The appendix includes:-
 - All strategic sites in the Aligned Core Strategy and site allocations in the Local Planning Document.
 - Sites granted planning permission before 31 March 2024.
 - Updates to existing sites in the SHLAA database during the current financial year (i.e. since 1 April 2024) such as work starting on site, construction completing, a new planning permission being granted or a new planning application being submitted have been noted.
- 16 New sites that are not currently in the SHLAA and have been granted planning permission during the current financial year (i.e. since 1 April 2024) are not included in this assessment, but will be included in next year's assessment.
- 17 The assessment takes account of the loss of a dwelling where this is replaced by at least one dwelling in order to provide a net figure for the number of new dwellings. **Appendix B** does not include sites that involve a loss of a dwelling where replaced by a single dwelling, unless the loss has occurred and work on the replacement dwelling has not yet started.
- 18 The approach taken to completion timescales and delivery rates is set out in the SHLAA methodology report.

- 19 Where allocated sites are complete or do not contribute towards the housing supply within the five year period, they are listed in **Appendix B** for the sake of completeness.
- 20 Where sites have already been granted planning permission, approved subject to s106 agreement or are the subject of a planning application, the number of homes permitted or proposed via the planning application form has been used.
- 21 **Appendix B** comprises separate tables for each locality for clarity as follows:-
- Strategic sites in the Aligned Core Strategy and site allocations in the Local Planning Document;
 - Sites that are currently under construction;
 - Sites with planning permission, which consists of small sites with outline planning permission, all sites with detailed planning permission and those medium/large sites with outline planning permission with evidence that the site will be progressed within five years; and
 - Sites with planning permission for communal accommodation.

Future sources of supply (windfall allowance)

- 22 Paragraph 72 of the National Planning Policy Framework 2023 states that local planning authorities may only make an allowance for windfall sites as part of anticipated housing supply if there is compelling evidence that they will provide a reliable source of supply. Any allowance should be realistic having regard to the strategic housing land availability assessment, historic windfall delivery rates and expected future trends. The National Planning Policy Framework 2023 defines windfall sites as sites not specifically identified in the development plan (which includes Local Plan).
- 23 Paragraphs 45-49 of the SHLAA methodology report explains the approach taken and concludes that a windfall allowance of 137 dwellings per annum will contribute to the housing supply from Year 4 onwards.

Consideration of undersupply (under-delivery)

- 24 Paragraph 31 of the National Planning Practice Guidance states that local planning authorities should aim to deal with any undersupply ('shortfall') within the next five years. However where the standard method for assessing local housing need is used instead, the standard method already factors in past under-delivery as part of the affordability ratio so there is no requirement to specifically address under-delivery when establishing the annual local housing need figure.

5%, 10% or 20% buffer

- 25 The Housing Delivery Test result for 2022 means that the Council will need to apply a buffer of 5% to its five year housing land supply by reason that paragraph 74 of the National Planning Policy Framework 2023 states that the

housing supply should include a buffer of 5% to ensure choice and competition in the market for land.

Forward look approach

- 26 It is considered appropriate for the five year period to begin with the current financial year i.e. this assessment will look at the period 1 April 2024 to 31 March 2029.

Non-implementation (lapse) rates

- 27 Paragraphs 51-52 of the SHLAA methodology report explain the approach taken to non-implementation rates which will be applied to the totalled figure of all unimplemented sites with planning permission i.e. sites where construction work has not started. The non-implementation rates are:-
- 8% for small sites (1-9 dwellings) and;
 - 2% for medium/large sites (10+ dwellings).

Communal accommodation

- 28 Paragraphs 16-19 of the SHLAA methodology report refer to counting other forms of accommodation including student housing and housing provided for older people in the housing supply. Currently there are no proposals for student accommodation within Gedling Borough. As there are sites with planning permission for other communal accommodation (for example residential care homes) within Gedling Borough the nationally set ratio applied to other communal accommodation will be based on the national average number of adults in all households and applying a ratio to the bedroom data of 1.8. Source data for the nationally set ratio is from the Census 2011 and the ratio will be updated following each Census when the data is publicly available.

Five year land supply calculation

- 29 In accordance with the advice of the Planning Advisory Service (PAS) and as set out in the SHLAA methodology report, the Council calculates its 5 year land supply as follows:-

[Local housing need for 5 year period] + [5%, 10% or 20% buffer] = 5 year housing target

5 year housing target ÷ 5 years = annual target

Housing supply for 5 year period (including the non-implementation rates for unimplemented sites with planning permission) including adjustments for student accommodation and other communal accommodation (calculated by applying nationally set ratios to the bedroom data of 2.5 and 1.8 respectively) ÷ annual target = supply in years

Summary

30 In summary, the methodology in calculating the five year assessment is as follows:-

- The sites that make up the housing supply include sites that are currently under construction, small sites with outline permission, all sites with detailed planning permission and those medium/large sites with outline planning permission with evidence that the site will be progressed within five years;
- The windfall allowance will contribute to the housing supply from Year 4 onwards;
- Addressing under-delivery is already built in to the annual local housing need figure;
- The Council adopts a 5% buffer due to the Housing Delivery Test result;
- The Council considers the five year period starting from the current financial year rather than taking a forward look approach;
- The non-implementation (lapse) rates are applied to unimplemented sites with planning permission; and
- Adjustments for student accommodation and other communal accommodation have been included within the housing supply;
- The methodology used to calculate the five year supply accords with PAS advice.

Five year housing land supply assessment

- 31 The local housing need for the five year period is 2,300 homes. However, as a result of the Housing Delivery Test 2022 result, a 5% buffer is applied which increases the housing target for the five year period to 2,431 homes.

Annual local housing need	460
Local housing need for five years (460 x 5 years)	2,300
5% buffer (rounded)	115
Five year housing target	2,415

- 32 Paragraphs 14 to 20 explain the sources of sites that make up the housing supply. The estimated housing supply for the five year period is shown in **Table 1**.

Table 1: Estimated housing supply for the five year period

	Allocations in the Local Plan [#]	Sites under construction	Small sites with permission	Medium/ large sites with permission	Total
Urban area	1431	75	57	10	
Edge of Hucknall	570	0	0	0	
Bestwood Village	93	0	4	0	
Calverton	320	2	7	0	
Ravenshead	82	3	3	0	
Other villages	7	19	26	0	
Total	2,503	99	97	10	
Non-implementation (lapse) rates applied	N/A	N/A	8% rate applied	2% rate applied	
Revised total	2,530	99	89	10	2701
Windfall allowance (137 x 2 years = 276)					274
Communal accommodation					17
Housing supply					2,992

[#] Aligned Core Strategy and Local Planning Document

- 33 **Appendix B** lists out the sites that are expected to deliver homes during the five year period. The appendix also includes information on whether the delivery information comes from the agent, developer or landowner through the SHLAA process or using the assumptions from the SHLAA methodology report. For housing allocations without planning permission and where delivery information has not been provided, annual delivery information is not available as the assumptions do not apply to sites without planning permission. However, the sites are included in the table for the sake of completeness.

- 34 **Appendix C** shows the housing trajectory for the plan period. This updates and provides more detail than the housing trajectory included in Appendix A of the Local Planning Document.

Conclusion

- 35 Comparing the estimated housing supply of 3,285 homes to the five year housing target of 2,431 homes, there is an oversupply of 854 homes.

Housing supply for five years	2,9923
Annual housing target (2,15 divided by five years) (rounded)	483
No of years supply (rounded)	6.19 years

- 36 The assessment shows that against the housing target, Gedling Borough Council has a **6.19** year supply.

Appendix A: Calculating the annual local housing need

The minimum annual local housing need figure for Gedling Borough is calculated using the standard method as published in December 2020.

Standard method

The standard method to calculate a minimum annual local housing need figure is set out in the national Planning Practice Guidance which can be found at the following web page <https://www.gov.uk/guidance/housing-and-economic-development-needs-assessments>.

Step 1 – Setting the baseline

Set the baseline using national household growth projections (2014-based household projections in England, table 406 unitary authorities and districts in England) for the area of the local authority. Using these projections, calculate the projected average annual household growth over a 10 year period (this should be 10 consecutive years, with the current year being used as the starting point from which to calculate growth over that period).

The national household growth projections are available at the following web page <https://www.gov.uk/government/collections/household-projections>.

Step 2 – An adjustment to take account of affordability

Then adjust the average annual projected household growth figure (as calculated in step 1) based on the affordability of the area.

The most recent median workplace-based affordability ratios, published by the Office for National Statistics at a local authority level, should be used.

The most recent median workplace-based affordability ratios can be found at the following web page <https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoworkplacebasedearningslowerquartileandmedian>.

No adjustment is applied where the ratio is 4 or below. For each 1% the ratio is above 4, the average household growth should be increased by a quarter of a percent.

Where an adjustment is to be made, the precise formula is as follows:

$$\text{Adjustment factor} = \left(\frac{\text{Local affordability ratio} - 4}{4} \right) \times 0.25 + 1$$

Step 3 – Capping the level of any increase

A cap is then applied which limits the increases an individual local authority can face. How this is calculated depends on the current status of relevant strategic policies for housing.

Where these policies were adopted within the last five years (at the point of making the calculation), the local housing need figure is capped at 40% above the average annual housing requirement figure set out in the existing policies.

This also applies where the relevant strategic policies have been reviewed by the authority within the five year period and found to not require updating.

Where the relevant strategic policies for housing were adopted more than five years ago (at the point of making the calculation), the local housing need figure is capped at 40% above whichever is the higher of:

- a. the projected household growth for the area over the 10 year period identified in step 1; or
- b. the average annual housing requirement figure set out in the most recently adopted strategic policies (if a figure exists).

Step 4 – cities and urban centres liftoff

A 35% uplift is then applied for those urban local authorities in the top 20 cities and urban centres list.

Whether a cities and urban centres uplift applies depends on whether the local authority contains the largest proportion of population for one of the 20 cities or urban centres in England within the list.

The cities and urban centres list is devised by ranking the Office for National Statistics list of Major Towns and Cities by population size using the latest mid-year population estimates (nomis, official labour market statistics).

The top 20 cities and urban centres list can be found at the following web page <https://www.ons.gov.uk/aboutus/transparencyandgovernance/freedomofinformationfoi/townsandcitiesintheuk>.

Note: where a cap is applied in Step 3, the 35% uplift is applied after the cap.

Calculating the annual local housing figure for Gedling Borough

Step 1 – Baseline

Latest household projections taken from Table 406 of the 2014-based household projections from the following web page <https://www.gov.uk/government/statistical-data-sets/live-tables-on-household-projections>.

Household projections for 2024 = 54,628

Household projections for 2034 = 58,500
Difference = 3,872
Divided by 10 years = 387.2

Average annual household growth = 387.2 (not rounded).

Step 2 – Adjustment factor

Latest ratio of median house price to median workplace-based earnings from Table 5C of the house price to workplace-based earnings ratio dataset (released on 25 March 2023) from the following web page
<https://www.ons.gov.uk/peoplepopulationandcommunity/housing/datasets/ratioofhousepricetoworkplacebasedearningslowerquartileandmedian>.

Ratio of median house price to median workplace-based earnings for 2023 = 7.02
Adjustment = ([7.02 minus 4] divided by 4) = 0.755
Multiply by 0.25 = 0.18875
Add 1 = 1.18875

Multiply average annual household growth (387.2) (from step 1) by adjustment factor (1.18875) = 460.284

Annual local housing need = 460 (rounded).

Step 3 – should the cap be applied?

The relevant strategic policies for housing are the housing requirement in the Aligned Core Strategy adopted in 2014 which is more than five years ago.

a. 40% above projected household growth identified in step 1 (above)

Projected household growth over 10 year period is 3,872 or 387 homes per annum
40% of 3,872 = 1,548.8
3,872 + 1,548.8 = 5,420.888 or 542. per annum

b) 40% above the average annual housing requirement set out in the most recently adopted strategic polices

Most recently adopted strategic polices = Aligned Core Strategy (2014)
Housing requirement = 7,250 homes for plan period 2011-2028 or 426.47 per annum
426.47 + 40% = 170.59
426.47 + 170.59 = 597.06 per annum

The annual local housing need calculated according to the standard method in steps 1 and 2 is 460. This figure does not exceed the higher of the two caps calculated in step 3 (i.e. 542 and 597.06) and therefore the cap does not apply.

Step 4 – should the uplift be applied?

As at December 2020, the list of urban local authorities does not include Gedling and therefore the uplift does not apply.

The annual local housing need for Gedling Borough is 460.

Appendix B: Schedule of deliverable sites in the plan period 2011 to 2029

Urban Area

Net completions 1 April 2011 to 31 March 2024:-

Arnold = 928 homes
 Carlton = 2,222 homes
 Total = 3,144 homes

Allocations in the Local Plan

Local Plan ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29
H1	Rolleston Drive	Arnold	112	Assumptions for build-out rates based on information from developer	SHLAA site G18. The site is allocated for 140 homes in the Local Planning Document (site H1). The site is currently under construction for 131 factory-built affordable homes (2020/1054). As of 31 March 2024, 19 homes have been completed.	59	53			
H2	Brookfields Garden Centre	Arnold	90	Delivery rates to be added when planning application is submitted.	SHLAA site G49. The site is allocated for 90 homes in the Local Planning Document (site H2). Outline planning permission for up to 32 homes on part of the site (to the rear of Brookfields Garden Centre) (2017/0155) granted in March 2020 has since lapsed in March 2023.					
H3	Willow Farm	Carlton	110	Assumptions for build out rates	SHLAA site G1225 (formerly part of SHLAA site G459). Site is allocated for 110 homes in the Local Planning Document (site H3). The landowner has promoted a wider site, including SHLAA sites G459 and G1225, for residential development through the Greater Nottingham Strategic Plan Growth Options consultation. Full planning application for 24 houses on part of the site (2021/1398) was submitted in December 2021 and granted permission in April 2023. No planning application has been received for the remainder of the site.	13	11			
H4	Linden Grove	Carlton	56	Based on past build-out rates	SHLAA site G542. The site is allocated for 115 homes in the Local Planning Document (site H4). Site is currently under construction for 120 homes (2021/0694). As of March 2024, 64 homes have been completed.	50	6			
H5	Lodge Farm Lane	Arnold	148	SHLAA consultation response 2023	SHLAA site G48. The site is allocated for 150 homes in the Local Planning Document (site H5). Resolution to grant outline planning application for up to 148 homes (2018/0347) in August 2019 subject to the signing of the s106. The landowner has promoted a wider site, including SHLAA sites G48 and G462, for residential development through the Greater Nottingham Strategic Plan Growth Options consultation. Information from the SHLAA 2023 consultation provides the delivery rates for the site.			36	36	36
H6	Spring Lane	Carlton			Site completed in April 2019.					

Local Plan ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29
H7	Howbeck Road/ Mapperley Plains	Arnold	78	SHLAA consultation response 2023 for the majority of the site under construction. Delivery rates to be added when planning application is submitted or permission granted for the remainder of the site	The site (which consists of SHLAA sites G51 and G671) is allocated for 205 homes in the Local Planning Document (site H7). The majority of the site is currently under construction for 164 homes (2019/0213). As at 31 March 2024, 140 homes have been built. A planning application for 54 homes on the remainder of the site was received in December 2023 and is currently pending consideration (2023/0926).	24	34	22		
H8	Killisick Lane	Arnold	230	Assumptions for build out rates	The site (which consists of SHLAA sites G50, G871, G872, G873 and G1032) is allocated for 230 homes in the Local Planning Document (site H8). The Local Planning Document includes a phasing policy to ensure that development of the site follows the extraction and progressive restoration of the adjoining quarry. Quarry extraction was scheduled to be complete by 2021, however due to COVID-19 the extraction of clay was slower than expected and consent has since been granted to vary the timing phasing condition. It is now anticipated that extraction will be completed by summer 2024 with progressive restoration taking place following this. Full planning permission on part of the site for 45 homes is going to Planning Committee in June 2024 (2023/0830). No planning applications have yet been received for the remainder of the site.		36	9		
H9	Gedling Colliery/ Chase Farm	Carlton	439	Based on past build-out rates	SHLAA site G131. The site is identified in the Aligned Core Strategy as a strategic location and is allocated for 1,050 homes in the Local Planning Document (site H9). The site currently under construction for 508 homes on phase 1 (2015/1376, 2017/1018, 2017/1076, 2017/1275, 2018/0249, 2018/0392, 2019/0304, 2019/0586, 2019/0759 and 2020/0667) and 433 homes (2021/1294) on phase 2. Full permission granted for 24 homes on the remainder of the site in (2022/0200) December 2023. Total figure granted to date is 965 homes. As at 31 March 2024, 526 homes have been built.	84	84	84	84	84
X1	Daybrook Laundry	Arnold	51	Delivery rates to be added when planning application is submitted or permission granted	SHLAA site G477. The site is allocated in the Local Planning Document (site X1). Full planning permission for 51 retirement apartments (2023/0701) was granted in March 2024.		51			
X2	West of A60 A	Arnold			Site completed in February 2023					
X3	West of A60 B	Arnold	144	SHLAA consultation response 2023	SHLAA site G778. The site is allocated for 150 homes in the Local Planning Document (site X3). Full planning application for 144 homes was approved at Planning Committee in March 2024 subject to s106 (2021/0072).		36	36	36	36
Total						230	313	183	156	156

Local Plan ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29
ACS	Teal Close	Carlton	393	Based on past build-out rates	SHLAA site G782. The site is allocated for 830 homes in the Aligned Core Strategy and has outline planning permission for residential development, employment uses and other uses (2013/0546). All three housing phases are currently under construction (2017/0800, 2019/0152 and (2019/0560). Total figure granted to date is 807 homes. As of 31 March 2024, 331 homes have been built. 197 homes on phase 1 with 2 plots remaining and 217 homes on phase 2 have been built.	83	83	83	83	61

Sites under construction (or complete during the current financial year)

SHLAA ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29

Allocations in the Local Plan

Local Plan ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29
H20	Mill Field Close	Burton Joyce			Site completed in March 2022.					
H21	Orchard Close	Burton Joyce	7	Assumptions for lead-in times and build-out rates	SHLAA site G537. The site is allocated for 15 homes in the Local Planning Document (site H21). The site is part of a larger SHLAA site G31. The site is currently under construction for 14 homes (2021/0301) granted in August 2021. As of 31 March 2024, 7 homes have been built.	7				
H22	Station Road	Newstead	40	Delivery rates to be added when planning application is submitted or permission granted	SHLAA site G132. The site is allocated for 40 homes in the Local Planning Document (site H22). Allocated in the Local Planning Document but not included in housing supply due to uncertainty over delivery, in part due to difficulties regarding access. The public house on site was demolished in early 2018. No planning application has been received.					
H23	Ash Grove	Woodborough	10	Delivery rates to be added when planning application is submitted or permission granted for the remaining plots on site	SHLAA site G196. The site is allocated for 10 homes in the Local Planning Document (site H23). Reserved matters for 12 homes (2007/0831) granted in November 2007. Plot 1 (3 Ash Close) was built in May 2018 (2016/0888). Plot 2 (adjacent to 3 Ash Grove) (2019/1147) completed in August 2023. Work on the remaining plots have not started.					

Local Plan ref	Site name	Locality/area	Units (remaining)	Housing delivery source	Assessment conclusion	2024-25	2025-26	2026-27	2027-28	2028-29
H24	Broad Close	Woodborough	14	Delivery rates to be added when planning permission granted	The site (which consists of SHLAA sites G776, G825 and G840) is allocated for 15 homes in the Local Planning Document (site H24). Resolution to grant full planning application for three detached houses on part of the allocation site (part of SHLAA site G776) to be accessed off Private Road (2019/1079) in August 2020 subject to the signing of the s106. Outline planning application for 11 residential houses on the remainder of the allocation site (i.e. remainder part of SHLAA site G776 and include SHLAA sites G825 and G840) to be accessed off Broad Close (2019/1080) was submitted in November 2019 and pending consideration. Notes

The annual housing target figures include the Aligned Core Strategy's annual housing requirement from 2011/12 to 2019/20 and the annual local housing need figures calculated using the standard method from 2020/21 onwards.

The remaining homes to come forward after 2028 on sites H5 Lodge Farm Lane, H9 Gedling Colliery/Chase Farm, H12 Westhouse Farm and H15 Main Street are provided in column A.

No delivery rates have been provided for the remaining 90 homes on part of H2 Brookfields Garden Centre site, the remaining 86 homes on part of H3 Willow Farm, the remaining 185 homes on part of H8 Killisick Lane and the remaining 9 homes on part of H23 Ash Grove site. Delivery rates to be added when planning application is submitted or permission granted. The figures are provided in column A.

No delivery rates have been provided for sites H13 Bestwood Business Park, H18 Longdale Lane B and X6 Kighill Lane B. Delivery rates to be added when planning application is submitted or permission granted.

The Local Plan capacity figures are provided in column A.

No delivery rates have been provided for site H22 Station Road because it is not expected the site will be developed by 2028. The projected completed columns are blank.

The housing trajectory does not take account of the non-implementation (lapse) rates which are used for the purposes of the Five Year Land Supply Assessment.

The “Cumulative completions”, “MONITOR” and “MANAGE” rows include past communal accommodation completions. Note the figures in the “Cumulative completions” row differ from the Government’s net additional dwellings due to the fact that the Government figure records past completions and communal accommodation completions separately.
